

Newcomer Organization Network – Local Market Information (LMI) Conference

March 2013

Mississauga's Living Arts Centre was the venue for the PHWDG's first NCON Labour Market Information (LMI) Conference. This half-day event was an extension of the NCON professional development conferences that have been running for the last four years. About 60 people from NCON member organizations attended the event to hear speakers and witness demonstrations on new approaches to bringing job seekers and employers together.
